#### Height Adjustment

Rotate the 2 knobs counterclockwise on a wooden leg until they fall down. Take down the wooden leg and put it on the desired height with the screws through the corresponding holes. Then put the knobs back and stabilize by rotating them clockwise. Repeat the above steps for all wooden legs for height adjustment.

#### Backrest Adjustment

Lifting: Gently lift the backrest with 2 hands, and the lifter would respond accordingly, which allows the selection of desired height.

Putting back: Lift the backrest to the maximum height, and then put it down naturally.
